Dear Incoming Students,

I am thrilled to announce the launch of our new program after two years of listening to feedback from students, employers, clients, and accrediting agencies. We have learned so much during this time, and we are excited to introduce a program that meets the needs of all our students.

Our new program is designed to provide a flexible, self-paced schedule that allows you to work on your own terms while having staff nearby to help you along the way. We understand the need for speed in completing the course and the importance of teaching in multiple learning styles. Therefore, we have implemented best practices to ensure that you can finish the course as quickly as possible while having access to course and study materials that go where you go (lunch break, late night, coffee break, etc.).

Our students have told us that they enjoy having that extra coaching to help them meet their personal goals despite being in a self-paced course. Therefore, we have implemented an app and book content custom-built from the ground up that is designed to give each student a customized learning experience that adapts to their needs while achieving their goals as quickly as possible.

The biggest thing we have learned is students, employers, and accrediting agencies have a need for precision while preparing for the national testing. With this in mind, we have developed an AI tutor that will assist you in your studies and give you that extra coaching to help you meet your personal goals while preparing for the national testing. These technologies have yet to be fully tested and tried, which is why we developed the Tester's Program to make schooling more accessible while continuing to develop this technology.

We believe that this program will provide you with the tools you need to succeed and meet your goals. We are committed to providing you with the best possible educational experience, and we welcome your feedback and suggestions as we continue to improve and evolve our program.

If you have any questions or concerns, please do not hesitate to reach out to us. We look forward to working with you and helping you achieve your dreams.

Sincerely,

Joshua Ridenour

These individuals will be closely monitored by our lead massage instructor to ensure their training is comprehensive and up to our standard.

While our tutors may assist with the training of new students, all tests will be conducted by a qualified instructor to maintain quality control. We believe that with the help of our tutors, students will receive the best possible education and support. Our lead massage instructor has approved the training content, and we are confident that our tutors are competent and capable of providing students with the necessary training they need.
